OUTDOOR ORGANIZATION

SPA&FITNESS CENTER

FOOTBALL

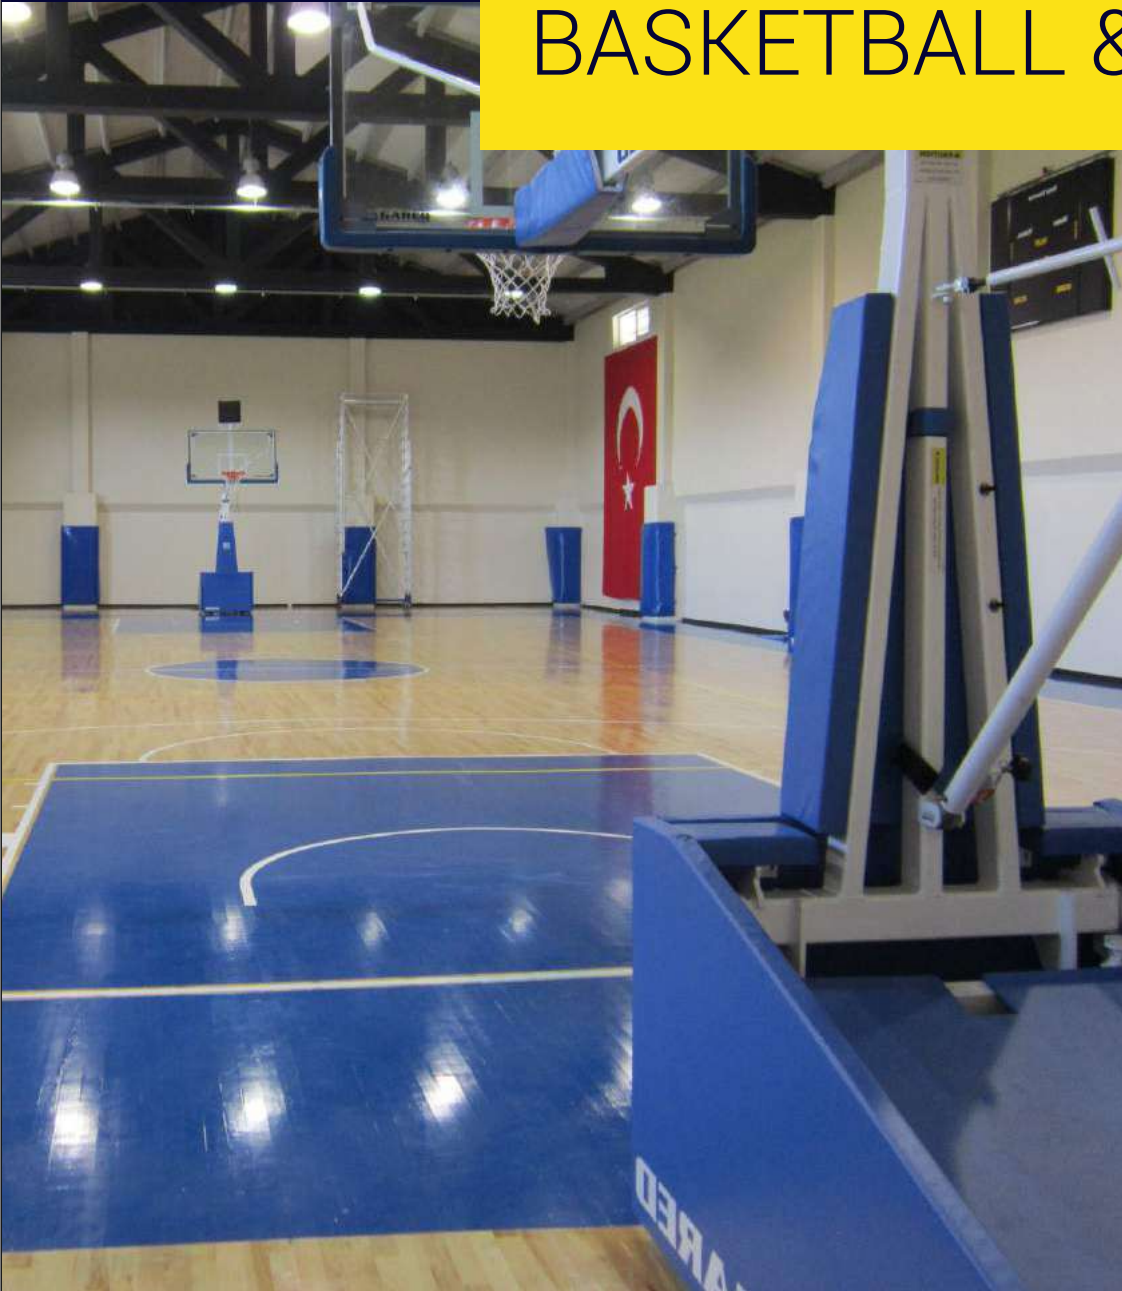

The facility has 3 grass football fields fitting to the UEFA standards, a lighting system for night matches and a spectator stand with a capacity of 400 people. The biggest factor for the teams to choose the facility is the fact that there are 3 playing fields in the size of 70*105 fitting to the UEFA standards, and that 3 teams camping do not have to share the time of the training hours, so that each team has a separate playing field.

In addition, the teams can play their preparatory games with the guest teams at the facility and the guest teams have also a dressing room and a shower offered.

The sportsmen can camp in the facility with an altitude of 1,300 and have fresh air and a plenty of oxygen.

BASKETBALL & VOLLEYBALL

In our hall, which is in compliance with the NBA Standards, Fenerbahçe Spor Kulübü and many other professional basketball and volleyball teams and sports schools are accommodated in our facility for camping. In our hall are 2 dressing rooms available.
